

CandFix Kit

A natural biological approach
4 Week Program

Reduce, Replenish, Rebalance:
Candida & Fungal Overgrowth

CandFiX Kit

Candida is naturally occurring as part of the normal microflora in the mouth, gastrointestinal tract, vaginal tissue and skin. Under healthy conditions, candida aids in digestion, nutrient absorption, and detoxification.

Candidiasis (overgrowth) occurs when candida shifts from a beneficial form to a symptom-causing pathogenic form. Once this shift happens, a wide variety of health issues can occur including:

- ▶ Gas, bloating, leaky gut
- ▶ Autonomic nervous system disturbances
- ▶ Yeast infections, itching, and UTIs
- ▶ Nail fungus
- ▶ Sugar cravings & fruit intolerance
- ▶ Athlete's foot and jock itch
- ▶ Fatigue and brain fog
- ▶ Bladder infections
- ▶ GI disturbances (diarrhea, constipation)
- ▶ Skin rashes
- ▶ Allergies, hives, itchy ears
- ▶ Depressed moods

Healthy Candida Principles

Reduce Candida and Biofilm

Replenish Intestinal Flora

Rebalance pH (acid-base) levels

A healthy gut with balanced intestinal flora and a strong immune system are needed to keep candida populations under control. Overgrowth begins when the intestine and healthy flora becomes altered (through a diet of refined carbs, sugars, high protein intake, and alcohol consumption); high stress lifestyle; increase heavy metal load; acid-base imbalance; antibiotic and antifungal medication; oral contraceptive and steroid use; and decreased immune defense.

A natural biological approach uses *Healthy Candida Principles* of reduce, replenish and rebalance to support a healthy digestive tract with balanced intestinal flora, proper digestion and a strong immune system. Rebalancing the body's internal environment will naturally keep candida levels controlled and reduce associated symptoms.

The CandFix Kit is based on a unique biological approach designed to reduce and rebalance candida overgrowth. The goal is resolve associated candida symptoms using the *Healthy Candida Principles* that support a shift of candida back into it's beneficial physiological form.

CandFix Kit Directions

REMEDY	PHASE/DOSE	MON	TUES	WED	THURS	FRI	SAT	SUN
Pleo Alb drops	7 drops in morning	✓	✓	✓	✓	✓	✓	✓
Probiotic 7-in-1	1 capsule with meals	✓✓✓	✓✓✓	✓✓✓	✓✓✓	✓✓✓	✓✓✓	✓✓✓
BasicTab	3 tabs with warm water on an empty stomach (30 minutes before or 2 hours after a meal).	✓✓	✓✓	✓✓	✓✓	✓✓	✓✓	✓✓

✓ = 1 dose per day • ✓✓ = 2 doses per day • ✓✓✓ = 3 doses per day

Note: Pleo Alb and Probiotic 7-in-1 can be taken at the same time. BasicTab should be taken on its own.

For Optimal Results: Your health care practitioner can assess symptoms to determine optimal length of treatment (8 weeks 2 kits). It is recommended to follow a gut healing diet and support a healthy intestine.

Medicinal ingredients: For ingredient and risk information, see box or individual product labels. Consult a health care practitioner before beginning this type of program.
