Homeopathic Ophthalmic Demulcent Medicine

Optimal
eye health
for acute
and chronic
conditions

Pleo Muc Eye Drops

Pleo Muc Eye Drops are a combination of sodium chloride and Mucor racemosus that have been Europe's natural choice for over 30 years. The sodium chloride provides isotonic cleansing and moisturizing for dry and irritated eyes. The Mucor racemosus is an isopathic ingredient that improves circulation and brings nutrition to the eye, while helping to reduce congestion and oxidation. Pleo Muc Eye Drops are ideal to help improve both acute and chronic eye conditions.

Features:

- ▶ Preservative free
- ▶ Fast acting
- ▶ Natural ingredients
- ▶ Safe to use with contact lenses
- ▶ Up to 30 days supply – each vial contains 15 drops

Clinical studies show successful results in acute and chronic eye conditions including conjunctivitis¹, dry eye syndrome, allergies, glaucoma and cataracts.^{1,2}

Consider Pleo Muc Eye Drops for:

- ▶ Conjunctivitis
- ▶ Dry and irritated eyes
- ▶ Allergies with burning, stinging & itching
- ▶ Irritated eyes: smog, pollen, chlorine, foreign particles
- ▶ Chronic eye conditions: cataracts & glaucoma

Tips on How to Use Pleo Muc Eye Drops:

- Topical application 1-2 drops in each eye, once to twice daily.
- Preservative free, can be used with contact lenses.
- To avoid contamination, do not touch tip of container to the eye or any other surface. Replace cap or cover after use.
- Apply eye drops to the outer palpebral tissue (outer corner) of the eye, as this allows the drops to move from the outer corner to inner corner, passing over the whole eye for optimal effect.
- Please note: avoid applying eye drops to the inner corner of the eye, as it contains the tear ducts where the drops will drain away without enough time to take effect.

Medicinal Ingredients: Mucor racemosus, sodium chloride.

Recommended Dosage: 1-2 drops in affected eye(s) twice daily. (approx. 15 drops per vial)

To avoid contamination, do not touch tip of container to any surface and replace cap after use.

NPN 80068485 • 5x – 10 x 0.5 ml single use vials
