- ▶ Anxiety & Stress
- ▶ Burnout & tiredness
- ▶ OCD & ADD spectrums

 RUBIMED AG

Rubimed Remedies

Rubimed is a natural healing method from Europe, providing a modern approach that addresses emotional issues and connects how these issues affect your physical and mental health. A Rubimed (PSE) practitioner tests subtle energy levels in the body using applied kinesiology and Reba testing techniques. Rubimed therapy is completely individualized and unique natural remedies will be recommended based on your test results.

The goal is to help resolve your emotional conflicts and restore health and wellbeing on all levels.

Rubimed therapy helps restore vitality. A 2-year clinical study with more than 1000 patients showed an 86.5% success rate for resolving anxiety, depression, trauma and stress.

Ask your healthcare practitioner how you can get started on addressing your core issues, improve energy levels and restore health for the long run!
